

PRIME MINISTER • PREMIER MINISTRE

March 2019

Dear Friends:

I am pleased to extend my warmest greetings to everyone taking part in National Engineering Month in Canada.

This month highlights the importance of the engineering profession in Canada, and introduces students to potential careers in the field. I am certain that participants will enjoy the many events being held across the country, and will gain a better understanding of the wide array of educational and professional opportunities in the industry.

I would like to commend the members of Engineers Canada for organizing this event and for giving young Canadians an opportunity to learn more about the engineering profession.

Please accept my best wishes for a successful month of events.

Yours sincerely,

The Rt. Hon. Justin P.J. Trudeau, P.C., M.P.  
Prime Minister of Canada
